DETAILED ACTION

Allowable Subject Matter

Claims 15-17, 19-23, and 25-26 are allowed. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a successive test method for testing memory and redundant memory. The prior art of record teach various methods for testing memory and redundant memory as detailed in the prior Office Action. However, none of the prior art teach or fairly suggest the claimed limitation:

“after testing the repaired functional memory and then adding access to redundant memory not required for repair of the functional memory, performing a third test, wherein the redundant memory is tested, wherein the step of adding access to redundant memory which is not required for the repair comprises faking defects to remap good elements with redundant elements.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion
